

[illegible]

The screenshot displays the Microsoft Access application window. At the top, the 'Query1' tab is active, showing a query named 'country'. The query criteria are set to 'Region = "Southeast Asia" AND Population > 5000000'. Below the query design grid, the 'Results Grid' is visible, displaying data for four countries: Indonesia, Philippines, Thailand, and Viet Nam. The columns in the Results Grid include Code, Name, Continent, Region, SurfaceArea, IndepYear, Population, LifeExpectancy, GNP, GNPGDP, LocalName, GovernmentForm, and HeadOfState. The data is sorted by Population in descending order.

Code	Name	Continent	Region	SurfaceArea	IndepYear	Population	LifeExpectancy	GNP	GNPGDP	LocalName	GovernmentForm	HeadOfState
IDN	Indonesia	Asia	Southeast Asia	190456.00	1946	21270000	68.5	69462.00	21852.00	Indonesia	Republic	Abdurrahman
PHL	Philippines	Asia	Southeast Asia	300000.00	1946	75967000	67.5	6507.00	62229.00	Philippines	Republic	Glenn M. Di
THA	Thailand	Asia	Southeast Asia	513125.00	1350	63290000	66.6	104548.00	153967.00	Prathet Thai	Constitutional Monarchy	Bhumibol
VNM	Viet Nam	Asia	Southeast Asia	331488.00	1945	76632000	69.2	23298.00	22824.00	Viet Nam	People's Republic	Tru Do
